

Basin Telecom

Security Solutions

Since 1987, Basin Telecommunications has helped you monitor your home or business more easily and efficiently.

Telephone Systems

Get the reliable voice communication system you can depend on to keep your business and profits moving forward.

Low-Voltage Solutions

All communication systems have their advantages and disadvantages. Let us help you find what fits your needs.

IT Solutions

In most cases, Internet technologies are only as good as the customer support backing them up. We've got you covered.

Video Monitoring

The only system with a greater on-demand presence than ours might be your own personal security guard.

Star2Star

Now you can combine voice, video, mobile, and fax communications all in one convenient, low-cost package.
