

Coffig for Life, LLC.

Many years ago we, as a family, had tried a similar natural fruit beverage made from dried figs and we thought... "One day, if we live where figs are grown, we'll make our own natural FIG beverage" and this day came in 2006 when we started our own family roasting trials and formulas which we named COFFIG.

Our Family Owned and Operated Business strives and is built upon and for our selected clientele, we take each and every customer very seriously. Your needs and choices are taken in our daily consideration. That's one of the main reasons that COFFIG has been constantly growing, promoted by each

satisfied customer, person to person or could we say...by a hot cup of COFFIG!

Your friends and family will appreciate to know and try this NEW COFFIG SENSATION which is both Healthy and Delicious!

We are seriously committed to quality, excellence and ongoing research and development.
